

Marine Nature Study Area Field Trip

Presented by:

Oceanside School District Nature Study Center

Founded in 1984, the Nature Study Center provides the Oceanside community with a focal point for discovery and appreciation of natural phenomena. Students, teachers and parents are all welcome at the Center for a "hands-on" experience.

Name:

Date:

Draw the **Landscape** around us.

What is a Glacier?

What is a Terminal Moraine?

What is an Outwash Plain?

Record Weather Data	
Cloud Cover	
Cloud Type	
Precipitation	
Temperature (F,C)	
Wind Speed and Direction (mph)	
Barometric Pressure (mm of Hg or torr)	
Notes:	

Record Water Data	
Temperature (F,C)	
Salinity (ppt)	
Specific Gravity	
Dissolved Oxygen (mg/L or ppm)	
pH	
Notes:	

Draw and label a **Plant Leaf or Flower** you observed.

Draw and label an **Animal** you observed.

Describe some **Sounds** you hear.

Do you **like** being **indoors or outdoors**? Why?

List some **Positive** and **Negative** feelings you have about your field trip today.

Positive	Negative

Notes:
